

WHYTE'S PROMISES PLEASE STRATHCONA Tells the People of Sister Town on the South Bank That He is Going to Make for Them a Second Calgary With Round Houses, Divisional, Handsome Depot and a Substantial Payroll.

There is joy in Strathcona today, the people of the sister town on the south bank are looking at the news through rosy tinted glasses, while the really broken have called all previous questions and missed everything up a few notches. It is all on account of the words of comfort and cheer given by Vice-President William Whyte, of the C. P. R.

On Saturday afternoon, previous to his departure for the south and east, Mr. Whyte gave the people of Strathcona an address in the vicinity of the railway man and at once got down to business. The object of his interview was to ascertain whether the railway was going to do for the town and what Strathcona could do for the C. P. R. in return.

Mr. Whyte was in his private car when the mayor and Coun. Elliott called. They were warmly received by the railway man and at once got down to business. The object of his interview was to ascertain whether the railway was going to do for the town and what Strathcona could do for the C. P. R. in return.

Mr. Whyte stated that if the building was well equipped it was "all right." The C. P. R. was not in a position to make a change in such matters. The proposed site was pointed out and Mr. Whyte said: "You could not get a better spot. It is close to the bridge and adjacent to the north town and very convenient for the town."

A number of other matters were spoken of by the town representatives and the attitude of Mr. Whyte was decidedly pleasant.

DELEG HOWLAND A SRRIGHT FREE TRADER Delivers Message on Retiring From Presidency of Toronto Board of Trade Which Shows One Man in the Queen City is Against Paternalism and Protection.

Toronto, Feb. 12.—That a period of dark money is probable for some time, that the national expenditure of Canada is becoming exponentially large, that deplorable conditions such as revealed by investigations into commercial, financial, insurance and political affairs are fostered by paternalism, that the government business on iron and steel should be discontinued, that preferential treatment should not be introduced in regard to Canadian products in foreign countries, that the railway commission in Canada should give more attention to questions of car shortage, discrimination, etc.

TRANSVAAL ELECTIONS.
Johannesburg, Transvaal, Feb. 12.—The first elections in parliament under the new Transvaal constitution will be held on Feb. 20, with every prospect of the Boers obtaining a working majority. Nominations for thirty-nine constituencies were held on Feb. 9 and today ten Helvick (Dutch) parties were declared elected unopposed. The campaign has been a struggle between the Transvaal British party and the Helvick. Sir Richard Solomon, former lieutenant governor of the Transvaal, will likely be the first premier.

GIBBONS SITE RECOMMENDED Boring Has Been in Progress for Some Time and a Depth of 193 Feet Reached on Week Location for an Intake from the River.

At the meeting of the city council this evening the commissioners will recommend the purchase of the Gibbons property, three miles up the river, upon which the city has had an option for some time. The option expires on Feb. 15th. Boring operations have established the fact of an excellent location for a reservoir and there are other features that commend the purchase. The boring has been in progress for some time. A depth of 193 feet has been reached, but had to be suspended owing to the cold weather, and there has not been sufficient time since to complete the work. Excellent deposits of sandstone and fire clay have been found though coal has not yet appeared in paying quantities.

Authority will be asked of the council to renew the boring operations further up the river in search of coal. The property, in the opinion of the commissioners, is an ideal one for an intake from the river and an excellent site for a reservoir on the same level as the city, thus obviating an uneven pressure in pumping such as is the case at the present time.

There are also other uses to which part of the property could be placed such as a public park within easy reach of Edmonton and reached by a picturesque drive through the West and residential section and up the river banks.

ELECTRICS AMBIGUATE

Hamilton, Ont., Feb. 12.—It was announced here this morning that the Ontario Power Co. has been absorbed by the Dominion Power Co., and the Transmision Co., incorporated recently with a very large authorized capital. The Hamilton electric railway is to be extended to Toronto, Hamilton, Grimsby and Bensenville.

THE PRESS GALLERY

(From our Staff Correspondents)

Ottawa, Feb. 1.—The House was occupied this afternoon in the second reading of the bill introduced by the minister of agriculture to encourage the establishment of cold storage warehouses. The bill provides for bonuses to the amount of the cost of such establishments, and the sum of \$100,000 was asked to meet the demands of the coming year on this account.

During the debate the minister expressed his willingness to defer to the opinions of various speakers to alter the terms of payment but maintained the condition that the payment should be extended over a term of years to better assure the government of the warehouses by the government. Under the bill the government retains control of the rates to be charged for storage and also of the temperature and conditions of storage.

The debate occupied the entire afternoon and most of the evening, and the Opposition, while expressing new warehouse plans, was insisting such warehouses should be established to justify their existence as a return for the assistance given by the government in the form of a loan. The criticism upon which their opposition was developed proceeded along two lines and was frequently repeated. It is desired to produce a theory while making a return for the application of the loan, that the right angle and the host lines would wind up in a tangled where their only bond of union was their common antagonism to the government's measure.

The first ground of opposition was that the encouragement offered to new warehouses was an unfair advantage over the already established concerns; the second was that the government was not prepared to offer any material encouragement to the establishment of new warehouses. Single member opposition offered much opportunity for reasonable argument; taken together they could have easily been refuted. If the bonus offers no encouragement to new warehouses it certainly can work no discrimination against established concerns and if it does discriminate against them it is a discrimination in favor of them.

FIREMAN SERIOUSLY INJURED Thomas Lander, Victim of Explosion of Fire Extinguisher at Alberta Hotel Shaken This Morning—Two Ribs Broken and Lungs Badly Bruised.

A small fire with somewhat serious results occurred this morning about a o'clock in the show rooms of the Alberta hotel. Chief Davidson was looking out of his upstairs window in the fire hall when he noticed a small fire in the windows of the show room. He hurried down stairs and called the men to his aid with his hand extinguisher. Fireman Thomas Lander was first on the scene where the fire was smothered. Chief Davidson carried the injured man outside and had him taken to the fire hall. Dr. Duncan Smith was called for and the injured man was taken to the hospital. The fire was caused by a gas cylinder which exploded.

THROUGH LINE TO QUEEN CITY Canadian Northern Asking Ontario Government for Favors in Return for Which They Promise to Build Connecting Links—Whitney's Col- leagues Give no Definite Answer.

Toronto, Feb. 12.—Direct connection between Toronto and Manitoba, Saskatchewan and Alberta as far as Edmonton by the Canadian Northern railway is a possibility of the not distant future. The question as to when the work will be commenced on the remaining link of the connection depends largely on the manner in which the Ontario government shall deal with the request for aid laid before today by D. D. Mann and W. H. Moore, of the Canadian Northern railway. Members of the government decline to say anything in regard to the matter, but the Globe is authoritatively informed that the government will not be asked to guarantee the bonds to an extent not exceeding \$20,000 per mile on the James' Bay line of the Canadian Northern from Toronto to Sault Ste. Marie, which point that line is now being pushed.

One story as to the government's confidence was to the effect that a land subsidy was suggested as one form which aid to the connection between Sault Ste. Marie and Port Arthur might take.

THE CONTROVERTED ELECTIONS ACT Lieutenant Governor Visits Legislature Yesterday and Gives Vice Regal Assent to Three Important Bills, the Controverted Elections Act, the Supreme Court Act and the District Court Act.

Three bills received the assent of the lieutenant governor yesterday. These were the bills respecting the Supreme Court Act, the District Court Act and the Controverted Elections Act. It is not customary to have bills assented to before the end of the session, but the government were anxious to have the Controverted Elections Act in force as soon as possible as there has been no election law in force in the province since its organization under the Alberta Act of 1906. This act goes into effect immediately so that the province of Alberta has now the full machinery for dealing with election matters.

At the time when the Supreme Court of the two provinces gave their famous judgment last fall, declaring that there was no election law in force in Saskatchewan, the Winnipeg Telegram stated that Alberta would be in the same position and intimated that the Alberta government would perpetuate this condition of affairs as long as possible. On the other hand the government have shown commendable energy in dealing with the courts the powers in this respect of the house and the legislature by the Attorney General.

The District Courts Act and the Supreme Court Act will come into force by proclamation. A few minutes after four o'clock the bill arrived and was escorted to the speaker's chair by the premier, preceded by the yeoman at arms, the mace at the same time being removed from the table. The clerk of the house read the bill and announced the assent of his honor. "In His Majesty's name doth his honor the lieutenant governor assent to these bills."

The House held but a short session, the business being merely routine. Several orders of the day were presented and were received and concurred in and several motions were advanced a stage. Mr. Walker (Victoria) presented a petition respecting a bill to confirm a bylaw of the town of Saskatchewan. Mr. Puffer (Laconia) presented a petition respecting a bill to confirm a bylaw of the town of Saskatchewan.

LISTENING BOARD IN BELL CENTRAL Starting Revelations in Telephone Investigation at Toronto—Monopoly Insured Operators to Listen to Conversation—Subscribers Talk Be- came Gossip of Switchboard Em- ployees.

Toronto, Feb. 12.—Notwithstanding strong objections to the proposed Bell Telephone Co. monopoly, more evidence about the "listening board" in the Toronto office was heard this evening. The bill was to encourage private enterprise to extend its operations in order to take the place of the Bell Telephone Co. and thus extend the benefits of the system more generally throughout the country.

In reply to questions he said the government could not regulate the manner in which the British purchase could handle Canadian property. The bill was to encourage private enterprise to extend its operations in order to take the place of the Bell Telephone Co. and thus extend the benefits of the system more generally throughout the country.

NEWS FROM STRATHCONA

ANNUAL MEETING, BOARD OF TRADE

Strathcona Business Men Rescind Resolution Disapproving of Loans and Bousings—M. G. W. Marlett New President of the Board

Probably the most representative as well as the largest meeting in the history of the Strathcona Board of Trade took place last night in the first hall. It was the annual as well as the regular monthly meeting and the business and professional interests of the town were out in full force.
The minutes of the last meeting were read by the secretary, Mr. J. W. Blain. The greater part of the meeting was taken up in discussion and the consequent rescinding of a resolution of Mr. P. C. Jamieson the passage of which had occurred in the December meeting. On that occasion Mr. Jamieson had made a lengthy speech denouncing "the principle of giving loans and bousings" but in his subsequent resolution the interpretation of the press and others present what he condemned not the principle but "the giving of loans and bousings" to individuals or companies.
Dr. Fuller in the hearty declaration took strong ground against the motion passed at the December meeting. He quoted reports of the meeting from the Bulletin and Plaindealer to show the report of the motion that went abroad. The effect was that an important business was almost turned away from the town. He urged that each case be taken on its merits and accepted or rejected as the board of the council thought fit. He quoted instances where manufacturers rejected in the town had had gone to another to the great benefit of the latter and the detriment of the town. While other towns in the district and encouraged industries Strathcona could not afford to neglect them.
Dr. Fuller, moved, seconded by Mr. Gallagher that the resolution be rescinded.
Mr. Jamieson declined the resolution and contented the newspapers did not report the resolution correctly. He regretted the discussion would not proceed in a spirit of unfriendliness. The resolution he had moved in the December meeting was not directed against any one personally. He opposed loans because the town by giving such did not get the worth of their money. In support of the view he spoke of a manufacturer and advertiser. If necessary, the giving of manufacturers' rate for water and light, or new water supply light, cost each town, a rate of a few cents. The town should be careful of its credit for there are a great many projects in view which will cost much money.
Mr. Ritchie thought Dr. Fuller had misrepresented the motion. The motion had avowed the encouragement to manufacturers, but deprecated the many.

Dr. Fuller spoke further, pointing out that he had interviewed a number of members who were present at the December meeting and they had endorsed the view of the motion as reported in the press.
Mr. Jamieson argued that matters such as these should be carefully considered. The resolution as a cast iron rule would do much harm to the town. He had opposed the resolution and was still of the same view. He admitted that the principle of bousings was not right but loans must be given if the town will progress.
Mr. Smart thought that men who built up the town should not be unduly deterred by late comers who did not appreciate the value of the town's credit.
Mr. W. H. Martin indicated a course where, thought, the motion of the board an industry was almost lost to the town for which many other towns were anxiously looking. This company's interest had plenty of money and was not in any lack of funds.
J. G. Tipton did not endorse the system of giving cash loans but approved of judiciously bousings deserving industries.
Mr. Gallagher urged that the resolution be rescinded.
Mr. McMeinry did not approve of placing anything on the books of the board that would discourage the advent of industries.
Mr. A. McMeinry urged that the resolution be taken off the books.
Mr. J. E. McDonald said after considering the matter for some time he endorsed the view that the resolution be removed from the books.
Dr. Archibald was of opinion that the house or loan question should be left to the town council.
After considerable further discussion Dr. Fuller's motion to rescind was put to the meeting and carried by a large majority. On recommendation of the following members were elected: Mr. N. D. Miller, Mr. J. W. Blain, Mr. J. T. Ross and W. E. Congdon.
The minutes were read from Mr. P. C. Jamieson's secretary. Motion of the board of trade to rescind the resolution of the December meeting was carried by a large majority. The minutes of the last annual meeting of the reading and adopted. J. G. Tipton stated that he had been asked by a number of farmers to bring before the board the matter of the Best Fair Exhibits to be held on the 4th, 10th and 15th. The board of trade had decided to give prizes and awarded a grant of \$100 from the town. Mr. Tipton said by stating that the commission would be very keen among the different districts as only the prize need would be shown at the Provincial fair. It was thus up to Strathcona district to secure the best possible by competition.
The president and Mr. J. E. McDonald made a splendid committee to get more facts and report to the council.
The secretary, Mr. Blain, submitted the annual report of the council. It showed a very successful year.

BUY AT HOME.

Loyalty to the city and to its factories and business establishments will be one of the chief factors in its future success. If you are making your living out of any of the city's industries that requires the patronage of your fellow citizens, see to it that you in turn patronize other business houses in the city. The merchant who would be most likely to complain at the appearance of a T. Eaton advertisement in his home paper is generally the man who is sending to Toronto for his printing because it is a few cents cheaper there. This kind of thing is not fair business, and is not the kind of cooperation and enterprise that will build up our city.

If you can get good Edmonton flour it in preference to the eastern product. Ask for Raymond sugar. It is an Alberta product and the equal of any sugar on the market, and it is putting money in the hands of the people who are helping to build up the commerce of the west.

You will not require to injure yourself to be loyal, you will find in almost every case the local man can do best for you, he is here all the time, and his business depends upon satisfying his customers. If the city dealer or manufacturer can supply you go to him and contribute to the business success of Edmonton rather than to Eastern Canada, or another country. Build up Alberta!

THE LUMBER COMBINE.

The Dominion government is after the alleged lumber combine. A committee of the house, composed of Hon. Thomas Greenway, M.P. for Lisgar; Mr. Wm. Sloan, M.P. for Comox-Alberni; H. C. McIntyre, M.P. for Strathcona; G. H. McIntyre, M.P. for South Perth; W. E. Knowles, M.P. for West Assiniboia; George W. Fowler, M.P. for King's County, N.B.; F. L. Schaffner, M.P. for Souris; Mon. John Herron, M.P. for Alberta; and M. S. McCarthy, M.P. for Calgary. The first five are Liberal members and the last four Conservatives.

This should make a strong committee of men interested in the welfare of the country, of both political parties and the responsibility of solving the problem is now upon their shoulders. The price of lumber is of vital interest to every settler and every town and city in the west. It has reached almost a prohibitive point now, and if a combination of the dealers or mills is the cause of the seemingly extortionate prices it is high time they were brought to recognize the fact that the unduly enhancing of the cost of one of the necessities of life will not be tolerated in Canada.

The demand for lumber is steadily on the increase, and the mills have difficulty in keeping pace with it, consequently the temptation to get a long price from those who must buy appears pretty strongly to the business instincts of any man, but as long as there is a healthy competition the price is regulated pretty fairly. It is the stifling of legitimate competition by object to the arrangement by which an extortionate price is fixed by all the dealers and the public forced to pay it. It is for this committee to find out if such exists, and if it does to see that the proper consequences follow.

NOTES AND COMMENT.

The care of the unfortunate is to be provided for by the provincial government. This is one of the first duties of a people. It is man's humanity to man.

A general railway act will be passed this session to safeguard the province in the granting of future railway charters.

ANNUAL MEETING BOARD OF TRADE
(Continued from Page Two)

pointed out that the duty of the board was in great part an advisory to the town council. It referred to its efforts in making exhibits, the efforts to secure the 25th, and its encouragement to the roads leading to the town. The increase of the annual fee to \$10, the employment of a permanent secretary to the board, and the efforts to secure a street railway to the town with the one proposed for Edmonton were the other principal suggestions.

The treasurer reported cash receipts \$100.00 and expenditures \$100.00, leaving a balance of \$100.00 to the secretary and \$100.00 to the board. There was still dues membership about \$100.00, of which \$100.00 was received last night. Mr. Arthur Phipps was appointed auditor for the books of the board. It was agreed that the membership fee be raised from \$5 to \$10.

The election of officers resulted as follows:

President—Mr. G. W. Marriott.
Vice President—Mr. Fuller.
Secretary—Mr. A. M. Fuller.
Council—Mr. H. Sheppard, Arthur Phipps, S. Q. O'Brien, J. M. Douglas, Mr. Archibald, W. J. G. Bush, and Hugh Duncan.

Mr. Sheppard was elected the chair in favor of the New President. His statement that he had acted in the best interest of the town at all times and was sure there had been a steady healthful growth which he would continue during the coming year. Mr. Phipps, manager of the Canadian Bank of Commerce thanked the members for the honor of electing him and promised with their best assistance to do his best in the interests of the town of Edmonton. He said he would reach the dignity of a city. He would suggest that the board in future be constituted in a more dignified manner. Strathcona is destined to be a big city and to this end the assistance to the town council.

A vote of thanks was passed to the President, Secretary and Council for their efforts during the past year and for their efforts in suitable terms by the new president.

After the retiring officers had expressed their thanks for the honor then the meeting adjourned shortly before midnight.

PERMANENT SECY
FOR STRATHCONA

The Best Available Man as Board of Trade Secy. Will be Secured at \$1000 a Year—Better Work Than Ever Will be Done Next Year

The Strathcona board of trade is growing more pretentious as the town is increasing in size and taking on the new dignity of a city. Its latest decision is to secure the best available man as permanent secretary with official headquarters and an salary of \$1000 a year. To this end applications will at once be called for. At the annual meeting last night ex-Mayor Sheppard spoke strongly in support of securing a good man for the position with an adequate salary and consequent more creditable work by the board. He was supported by Mr. Archibald and Mr. W. J. Martin, the latter suggesting that an employment bureau be located near the station. He remarked that at other western cities emigrants were at once taken in hand on their arrival by Board of Trade officials, but on Strathcona there was no official source of information, but the immigration officer.

A resolution that a man be secured at a salary of \$1000, was passed unanimously by the board. It is expected that about \$800 will be secured from numbers due and this will be supplemented by a grant of \$1000 or more from the town council.

LOCALS.

—The regular meeting of the town council takes place this evening.

—Mrs. Grinnell and daughter Mahol, of Leduc, are spending a few days with Mrs. H. Barber of Strathcona.

—The students of Alberta college are making arrangements for a concert in Ross Hall on Friday evening next. This will be the last in that building as it is in future to be utilized by the firm.

—Work has not yet been commenced on the new foundation for the large engine at the power house. The consulting engineers, who are looking into the question have not made their report.

—As a result of the conference yesterday between the Edmonton Commissioner and Mayor Miller, Council, Elliot, McIntyre and Hamilton and Halbert of Strathcona a tentative agreement for the purchase of the former automatic telephone system to the southern town was arrived at. It will be submitted to the different council tonight and tomorrow night to be considered by the meeting of Strathcona ratepayers in Ross hall.

Great Sale of Trunks
AT
Hudson's Bay Stores

For this Week we are offering a Carload of Trunks and Suit Cases at prices which have never been so low in this City before.

These goods we secured from the manufacturers during the slack season at very low prices. The benefit derived from this transaction is yours, for we offer them to you at the smallest margin of profit to ourselves. We must have the room now for Spring Goods.

We have a line of Trunks, very strongly made, at \$2.25, \$2.50, \$2.75, and \$3. Another lot we are offering at \$4.25, \$5.00, \$6.00, and \$7.50.

A very special line, extra strong, with heavy brass bands and corners, \$8.75, \$9.50, and \$10.00, according to size.

We are also clearing a quantity of Leather Suit Cases at prices ranging from \$6.00 to \$15.00.

Leather Hand Bags from \$2.25 to \$7.50.

Secure some of these before they are all gone. This is an opportunity that should not be missed.

MOUNTFIELD & GRAVES

NO MONOPOLY ON COLD WEATHER

Subscriber Writing From Concord, N.H., Gives Vivid Description of the
Bread of Weather Which Prevailed
the Days to the South of Us.

Concord, N.H., Feb. 1st.

Editor Bulletin:
Having seen in the Bulletin the record of some cold weather, the snow, etc., in the Edmonton district, I think I will not come unless I can report as to the weather conditions here in Montana. There are a good many ranchmen and farmers let this district the last two or three years for Alberta, and as they may be looking back to the fresh snow and the untimely wind-blown ranges of Montana, I will give some real facts as to my experience this winter here. I arrived in Concord on route for Edmonton the 18th of January, 1906. That was the last I saw of the mild summer weather, that one has so much about from this part of the country. The 18th of November it started to storm in a fashion which few have seen in Edmonton. Since that time it has been winter—a few good days now and then about the middle of December the snow became crusty—which meant loss to workmen—as few are prepared with enough hay to carry them over any length of time—the snow has since come and crusty come and crusty until reaching extra haggard, northern Montana will expel a case to the north. The industry which has never been experienced before in the history of the already women are going out of business; the kids of thousands are perishing from the want of food and from the cold. The cattle droves are seen to ramble around, or stand huddled up waiting for death—the inevitable if it does not change. Today the weather is worse than ever—about 25 below zero with snow from the north. I am told by the boys here that it comes from the mountains. But I doubt it. Two friends of mine in the Edmonton district and others which may be long to be here here, I say where you are, I have spent years here and several years in the Edmonton country, and from my experience I believe that the chances of getting on is quite as good in Canada with the snow and cold winds as here where the land is high, the water is high.

Noting that this will cure the homesickness of some Montanians abroad, I am sincerely,
SAMUEL BALLID

Let me show you why you, personally, can make money with a **PEERLESS Incubator**

I Take Most of the Risk

There is money in raising poultry, big money. Why can't you get some of it? You can; and I know you can, if you make the right start. I am so sure you can that I will outfit you to start without your paying me a cent beforehand.

No philanthropy about it—just plain business with me. I mean exactly what I say when I propose to do just this:

I will furnish what you need to start with, and you needn't pay for it until it has paid for itself twice over, at least. This is the idea:

Tell me who you are, to begin with. Then I will show you where the profit in poultry really is, and that you can get as big a share of it as you deserve.

When I have satisfied you on that, just tell me you are ready to start after that profit, and—

I will ship you a Peerless Incubator, and a Peerless Brooder, or just the incubator alone.

I will pay the freight charges.

I will tell you how to run the incubator and run it right.

I will stand right back of you all the time, tell you anything you want to know about poultry-raising, find a good market for any poultry you want to sell, act as your expert advisor, and leave the profit for you. All I ask you to do is to promise to pay me for what I ship you, after it has had time to earn twice its cost and more.

I will give you any time you want to pay in,—three years, if you say so

I will guarantee everything about the incubator to be all right,—I will take just about all the risks, in fact. You supply the eggs and the oil for the lamp, and use common-sense and a little energy,—that's your part of it.

The Lee-Hodgins Co., Limited, 162 Pembroke St., Pembroke, Ontario

To save time and freight Western orders will be shipped from our Winnipeg warehouse; but all letters ought to be sent to Pembroke.

I know it sounds almost too alluring,—but it's true, and it's honest. Write to me and I will prove that to you.

I want to get you into the poultry business for my own sake, you see. I know that if you succeed at it you will be a customer of mine as long as you live, and you will send me other customers.

That's one reason why I am willing to send you my incubator on your say-so.

I KNOW you can't help succeeding with poultry, if you start in earnest and start right. Tell me your name and address, and hear what I have to say. You aren't committed to anything by writing to me,—hear what I have to say to you, that's all. Suppose you write now!

You don't have to "putter" with a Peerless Incubator to get good hatches. Anybody who can tend a lamp can run it, and run it profitably, because the Peerless is simple, practical, sensible. It is built by practical poultry-men who put into it what it is worth. It is a sure thing, and who have left out of the Peerless everything that makes other incubators give trouble and waste money. It hatches hearty, sturdy, sure-to-grow chicks, because it is properly ventilated, because it hasn't any moisture problem, because it uses heat in the only way that is certainly right.

I can show you why that is so, if you will ask me to,—can't do it here, because there's no room. Tell me you'd like to know why the Peerless Way Makes Poultry Pay. I will see that you get the facts. Write and ask to-day.

AMERICA'S EX-CHAMPION WRESTLER

"After my great wrestling match with J. Moller, of St. Louis, at the Crystal Palace, England, for the International Championship, I was covered with cuts and bruises. I applied my favorite ointment, Zam-Buk, and in a remarkably short time the abrasions and cuts were healed, and I was fit and well again. At another time I had a piece of flesh almost completely cut off my arm when the rubber band broke. I immediately applied Zam-Buk, and in a few days the wound was healed, and I was able to go on with my work. I am now well and strong, and I am sure that Zam-Buk is the best remedy for all skin injuries and diseases. Yours truly, HUGH LANNON.

For all Skin Injuries & Diseases

Zam-Buk
The Balm that benefits You

CANDY & CO.

The only complete and perfect food is milk. In it are both-formers and heat makers in the right proportions properly balanced.

Milk taken every morning and evening in conjunction with Orange Meal, which, according to Prof. Harcourt's determination, is 50% more valuable as a food than bread, supplies the most perfect and evenly balanced food that human nature can crave. Build up children on Nature's food.
